

RIVERVIEW SCHOOL DISTRICT  
**BYOD Agreement (Gr. 9-12) - School Year \_\_\_\_\_**

Brand:	Student Name:
Model:	Parent/Guardian Name(s):
Serial #	Grade:
Student RSD ID:	Home Phone #:

**What kind of device do you intend to bring to school daily in place of a school issued netbook?**

If checking 'other' please be as specific as possible.

- Windows compatible laptop/netbook running Windows 7 or higher
- Mac compatible laptop running Mac OS X 10.6 or higher
- iPad 2 or higher running the latest version of iOS
- Android tablet running Android KitKat 4.4 (minimum screen size of 7" and an ARM-based processor.)
- Windows tablet running Windows 7 or higher
- Other: \_\_\_\_\_

**I understand that by completing this form that I am opting out of the Riverview School District one-to-one netbook program. My child will not be issued a device for the current school year and I will supply them with a device that meets all of the below stipulations.**

- Device must be able to run Office 365.
- While a smart phone is acceptable for basic research and use as a remote connection device, they are not an acceptable substitute for the one to one program.
- Anti-virus and updates must be installed and maintained.
- The student takes full responsibility for his or her device and keeps it with himself or herself at all times. The school is not responsible for the security of the device. It is recommended that students record the serial number of their device and keep that in a safe place and clearly mark the device for easy recognition.
- The students are expected to use the district's secured wireless network. Users shall have no expectation of privacy in anything they create, store, send, delete, receive or display on or over the district's Internet including personal files. (Policy #815) **Use of 3G & 4G wireless networks is not allowed.**
- While logged into the schools guest network, shared drives (for example; R: and H: drives) currently are not accessible, the District is working on a solution for this. Students with school email addresses will have access to their OneDrive cloud drive to store all of their work. Students are encouraged to save often and early. Access to printers will also be limited.
- The school reserves the right to inspect a student's personal device if there is a reason to believe that the student has violated the Acceptable Use Policy (Policy #815), administrative procedures, school rules or has engaged in other misconduct while using their personal device. (Policy #226)
- Violations of any Board policies, administrative procedures or school rules involving a student's personally owned device may result in the loss of use of the device in school and/or disciplinary action.
- The student must comply with teachers request to shut down the computer or close the screen. Failure to do so may result in loss of BYOD privileges and/or disciplinary action.
- The student may not use the devices to record, transmit, or post photos or video of a person or persons on campus. Nor can any images or video recorded at school be transmitted or posted at any time without express permission of a building principal.
- The student device must be fully charged upon arrival at school because the school lacks adequate charging capabilities at this time.
- The district is not responsible for any technical issues with personal devices and students and parents should not have an expectation of support for their devices.

**Acknowledgement and Agreement:**

I acknowledge that I have received a copy of this agreement and agree to the terms and conditions set forth herein, and (initial applicable section):

\_\_\_\_\_ Agree to the Opt-Out stipulations.

Parent/Guardian Signature(s) \_\_\_\_\_ Date: \_\_\_\_\_

Student Signature \_\_\_\_\_ Date: \_\_\_\_\_
