

Dear Riverview Parents,  
School is back! The staff have been so excited and the kids are off to a terrific start; a more *normal* start. We hope you feel the same. Below are a few items for your consideration this week:

1. **Issues/Concerns** - We hope that you do not experience any issues or concerns throughout the year. If you do have an issue or concern in the classroom or on the field/court, please give the staff the courtesy of reaching out to them and discussing your concern first. Take in all the information and work collaboratively to solve the problem. If you cannot get the issue resolved, feel free to contact the building Principal and move up the line from there. If you have an emergency, contact your building Principal or the local authorities. Raising and educating children is a team effort and we hope you see us as allies and teammates. We are here to support you, and especially, the students!
2. **Covid-19 Issues** - It is inevitable that some students may get Covid-19. If this is the case, please contact your physician and our school nurse right away. This will allow us to keep our school environment safe. Remember that we have FREE PCR and rapid antigen tests that we can administer with your consent, at any time.
3. **Raider Store** - As previously stated, we have a new [Raider Store](#) available on our [District home page](#). There is a grand opening 25% discount available right now. Credits go back to our school to be used to dress up our campuses with Raider pride!
4. **Opening Day Pictures** - We have some great pictures on our [District home page](#) and our [District Facebook](#) and [Twitter](#) pages from the start of school. If you aren't following us on Twitter, please do!

That's all for this week! We wish you a very happy, peaceful, and safe holiday weekend.

Go Raiders!  
Sincerely,

The Riverview Administration
