Connecting your iPad to your home WiFi network
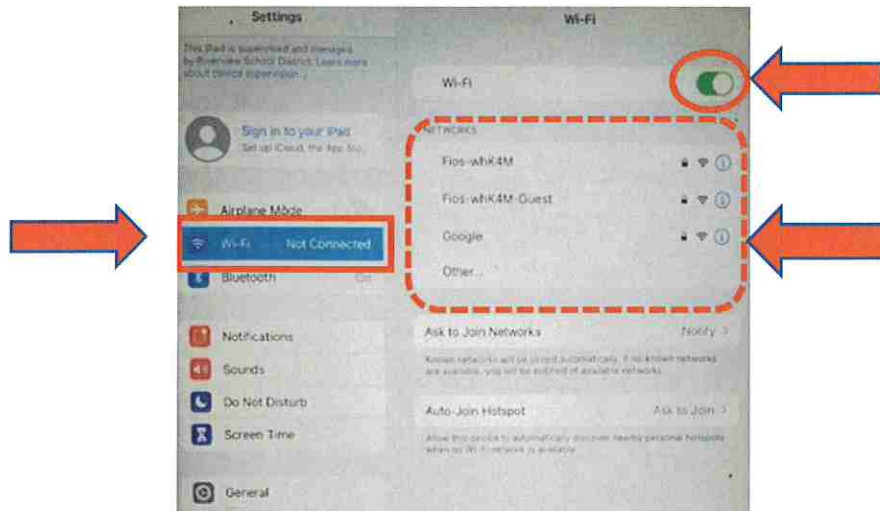

Step 1 – Tap on the "RSD Stuff" folder on the iPad home screen:

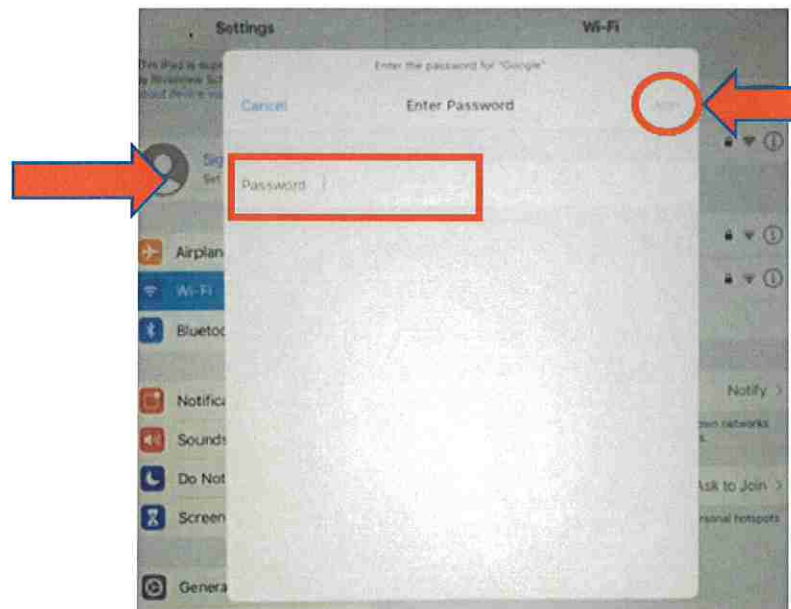

Step 2 – Tap on the "Settings" App:

Step 3 – On the Settings menu, tap on "Wi-Fi". Make sure Wi-Fi is turned on with the toggle slid to the right. Under "Networks", tap on your home Wi-Fi network.

Step 4 – Type your password in the password field and tap on "Join" on the top right to connect to your Wi-Fi network.

If successfully connected, a blue checkmark will appear next to your network, and the connected Wi-Fi icon 📶 will appear in the upper corner of your iPad display.
