

Garrison April 15-17th

This is an overview quiz of what I have shared with you so far. It is 8 questions from the previous three assignments given.

I've attached the links from the videos I made if you want to watch them again before taking the Quiz

Do your best on this quiz.

Roof Trim https://www.youtube.com/watch?v=qKuP7ZsNL_U

Hammers <https://www.youtube.com/watch?v=-J76F3zKGrc&feature=youtu.be>

- 1) What part of the hammer pulls nails out of wood? _____
- 2) Name three types of handles for hammer. _____, _____, _____
- 3) A _____ is the underside of any structural member of a building, such as the underside of an eave or cornice.
- 4) **True or False** A Jig could be described as : a device that holds a piece of work and guides the tools operating on it.
- 5) **True or False** **The Fascia** covers the eaves of a roof and prevents rot and water damage?
- 6) **True or False** A **Ball Pein Hammer** would be a good choice for working with Metal?
- 7) **True or False** Mr. Garrison's said his framing hammer was 22 ounces. He said that that was a good weight for him because the weight of the hammer helped drive the nail easier and with less strikes.
- 8) **For this question please share something you have been doing or that you are proud to share. I want you to be relaxed and try your best everyday until we get back to "normal" again. I hope you and your family are safe.**

SEND BACK YOUR RESPONSE TO THIS EMAIL

That's it for now. Look for more emails and my videos to come. If you have questions PLEASE ask. I'm here everyday and want to help.
