Please view the attached video link on YouTube and answer the following questions the best you can.

- 1) I said that you want to be as EFFICIENT as possible when working and in this case Painting. Why is being EFFICIENT so important?
- 2) What should you look for before or when you are setting up your ladder?
- 3) What is the advantage of using WATERBASED Paints?
- 4) How many coats of paint should you do ? ( I did not mention this in the Video)
- 5) T or F You should paint with the grain and not against it?

Send me your answers VIA this email or write them down, photo and send.
