

## **Economics**

Chapter 4 Lesson 3 review sheet & Demand Curve/Elasticity handout should have been submitted on Friday 4/24.

Begin reading Chapter 5 (Supply) lessons 1 & 2 in the eText (<https://my.mheducation.com/>). Access the Ch 5 PowerPoint notes, Production Charts handout (this is a guide to all chart calculations), and all review sheets in Microsoft Teams. Look under Files, Class Materials. Email me if you are having any issues with Microsoft Teams. The Ch 5 terms are also available in Quizlet.

Submit the following by Friday, May 1, at 10 pm:

Chapter 5 Lesson 1 & 2 review sheets responses

Economic Journal Entries for 2-week period April 20-May 1 (6 total entries)

## **AP Computer Science II**

If you haven't already, please complete Unit 5 Free Response Question in the AP Classroom.

This week:

Please complete Free Response question #3(Postage) from Practice Exam A-1 on page 206 in the Be Prepared text and submit your responses to me via email. Again, the possible solutions are in the back of the book, but try not to look until after you are finished—looking will not help you tackle the exam when it comes along. Then log on and do the Unit 6 Free Response Questions in the AP Classroom no later than Friday, 5/1 at 10 pm.

Also, for those taking the exam, keep practicing on your own with the Free Response questions in the peach/green supplemental texts I distributed

## **Computer Science I**

Continue working on Unit 7 exercises. Remember that I am able to track the time each of you spend in the CMU software and everyone needs to put forth effort by accessing the software but spending time there. If you are having issues/challenges, PLEASE communicate that to me. I am here to help! You can easily send a copy of your code to me to evaluate or just ask a question. I am also available for video meetings in Teams.

- Unit 7 Random Values was due Wednesday 4/22; please be sure you have the points required by the Ch 7 grading sheet in Teams.
- Unit 7 Exercises will be due Friday 5/1.

## **STEAM Animation**

All work up to and including Lesson 7 should have been completed by Friday, April 17. Please email me if you had any issues.

This week you are to continue working through the steps of Lesson 9 Sprite Movement (yes, we are skipping Lesson 8) in code.org. The grading rubric and notes can be found in your TEAMS class under Files, Class Materials. This lesson should be completed by NEXT Friday, May 8.

**IMPORTANT:** Access and READ the notes I am providing. If possible, print them so you can reference them as you are working through the steps of the lesson.

**\*\*When finished with tasks, be sure to click finish/submit to notify me that code is ready to be graded.**

## **Publishing**

Please submit time sheet information for April 27-May 1 to me by Monday, May 4. A reminder that time sheet requirements for full credit at home are everyday students (2 hours per week), 4-day students (1 ½ hours per week), and 3-day students (1 hour per week).

Based upon our meeting, you should be working on the items we discussed. If the page is complete, message your partner and me via Remind.

Molly, Victoria & I met to decide upon filling the rest of our pages, and this is the tentative plan: Musical (we have photos of rehearsals), At Home (help us gather photos for this), Seniors & Siblings, Senior Houses (decorated), Graduation, and Prom. We are also planning on replacing the Forbes page with a School Spirit page. If you can help with any of these pages, please offer. WE NEED YOU!
