

Mr. Ilnicki's Courses

Physical Science & Biology

PHYSICAL SCIENCE:

MONDAY/TUESDAY/WEDNESDAY (4/6-8/20) - complete the **"Chemistry Review"** questions. Place the answers to the questions on a separate sheet of white-lined paper. I'll attach the questions to my email Monday morning. **Please send me a picture of your answers by Wednesday at 7:00.**

BIOLOGY:

MONDAY/TUESDAY/WEDNESDAY (4/6-8/20)

EVOLUTION AND CHARLES DARWIN

Directions: Please click on the link below to watch the following documentary:

Evolution and Charles Darwin – Nova – Discovery History Science (Documentary) 1:52(04)

<https://youtu.be/K3QdmgEv7KE>

If for whatever reason you are unable to open the link, please go to YouTube and enter the title of the documentary (Evolution and Charles Darwin – Nova – Discovery History Science (Documentary) 1:52(04)) and you should find the video.

As you watch the documentary, please answer the questions that follow these directions (I'LL ATTACH THE QUESTIONS TO MY EMAIL ON MONDAY MORNING). You may choose to print out this paper with the questions (if you have a printer) and write your answers directly on this sheet, or you may get a sheet of notebook paper and number it 1-30 and write ONLY your answers on that paper (you do not need to rewrite the questions). Using either method, once you are completed, please take a picture of your answers and email them to me on Friday, April 17. Due to the length of the video (1:52(04)) and the time that it will take to complete the questions, I have allotted six school days to complete this assignment. Due to spring break being April 9-14, you will have April 6,7,8 and April 15,16, and 17 to watch the video, record your answers, and submit your answers to me. **Please make sure your answers are submitted by the end of the day (7:00) on FRIDAY APRIL 17th.**
