

Miss Danielle Lorenz's Chemistry Lesson Plan

Week of May 18- May 22, 2020

Dear students and parents,

What follows are plans for work and studying that you can do for the next week while our normal school schedule is disrupted. I will be available if you have questions, all you have to do is email me at dlorenz@rsd.k12.pa.us or send me a remind message and I will answer you as quickly as possible.

You will be turning them in on the "Teams" application which can be found in the Microsoft 365 login that you access your school email from.

Chemistry 1 (10th grade students)

Assignments given for May 17-22. Students can find the link for the assignments right on the TEAMS application with the date of the lesson and the due date. They can type right into the assignment document and turn it in when finished. They are due the next school day on the TEAMS application site. Please email with ANY questions. The assignments will be up this weekend for students to work ahead if they would like.

Monday 5/18 (Due Tuesday 5/19)

Wednesday 5/20 (Due Thursday 5/21)

Friday 5/22 (Due Sunday 5/24)

I also have "drop in" online hours on TEAMS that I am online and ready to digitally conference with your child to answer any questions about the lessons. Since I haven't had any students attending them, I request the student to email me and we'll arrange a time to both jump on to TEAMS so I can help them.

Please email me if you are a parent and would like a copy of the assignments. Anything that I can do to help, don't hesitate to reach out.

AP Chemistry

Assignments will be sent to students through their emails! Great job this year, AP Kids!

Thank you and be well!!

- Miss Lorenz
