

Week of April 6th, 2020

Physics 1

This week there is one assignment that is due and it is an online quiz on the material we have been working on in the CFPM packet. Instructions are below.

Assignment: Quiz

Due by 3:00 pm Wednesday, April 8th.

- 1.) Login to the class website.
- 2.) On the home page of the class website will be a link to complete the quiz. Click on the link to begin. The quiz contains multiple choice and extended response questions.

Some things to note about the quiz:

- 1.) The quiz will be available to you to start on Tuesday morning at 8:00 am.
- 2.) Once you start the quiz, you must finish it in one sitting. It can not be stopped and restarted.
- 3.) Allow yourself at least 45-60 minutes to complete the quiz. The quiz will be set on a timer and must be completed in less than 60 minutes. This should be more than enough time.
- 4.) You can use your notes and CFPM packet as you work through the questions on the quiz.
- 5.) You can not consult with anyone else about the quiz before, during, or after taking it.
- 6.) The extended response questions allow you to type your answer directly into the quiz. Some of these questions might require you to show a numerical calculation. Do your best to show your numerical work in a way that I can follow what you are doing, but don't get bogged down with the formatting. Just do your best to communicate what you are doing to solve the problem.
- 7.) Your access to take the quiz will end at 3:00 pm on Wednesday April 8th, so please do not wait until the last minute to start.

If you have any questions, please contact me or attend the virtual office hour sessions via Zoom. Due to the shortened week and the nature of your assignment this week, I will be available on Zoom on Monday, from 10:30 – 11:30 am. A link to access this session will be provided in Monday's email and will also be posted on the class website.

AP Physics 2

For this week we will continue to work on the Thermodynamics packet. Plan to meet via Zoom meetings during our regular time on Tuesday from 10:00 am until noon where we will go over your assignments and discuss new material. If you can't attend this session, please let me know.

8th Grade STEAM/PJAS

Complete the following Nearpod activity on mass and weight by Friday, April 17th by 11:59 pm.

1. Use a web browser on a computer or phone and go to join.nearpod.com.
2. Enter the code DXEWV and then enter your name.
3. Complete the activity, your answers will be recorded and will be counted as part of your 4th nine weeks grade.

If you have technical difficulties that prevent you from completing this assignment, please contact me so that we can work something out.
