

**Week of May 18<sup>th</sup>, 2020**

**Physics 1**

This week we will be finishing our work in the Momentum Transfer packet. Your assignment for the week is to finish Practice 3 in the Momentum Transfer packet by the end of the week (Friday, May 22<sup>nd</sup> by 11:59 pm), you will need to have completed all of Practice 3 and email me pictures of your work on all pages of the practice. There is no new instructional video this week as Practice 3 is really about applying what you've learned so far to some new situations.

I will be available for virtual office hours for extra help via Zoom meetings. Sessions will be available on Monday and Wednesday this week, but not on Friday from 10:30 to 11:30 am. These sessions are optional, but they can be an easy way for you to get any questions you may have answered. Of course, I will be available via email too throughout the week if you have questions and can't attend one of these sessions. A link to access the sessions will be provided via Monday morning's email.

Please be sure to check the class website as it will also be continually updated with the assignments for the week, videos, and the link to the Zoom sessions.

**AP Physics 2**

For this week we will continue to debrief from the AP Exam. Plan to meet via Zoom meetings during our regular time on Tuesday and Thursday from 10:00 am until noon. If you are unable to attend these sessions, please let me know.

**8<sup>th</sup> Grade STEAM/PJAS**

Complete the following Nearpod activity on black holes by Friday, May 29<sup>th</sup> by 11:59 pm.

1. Use a web browser on a computer or phone and go to [join.nearpod.com](https://join.nearpod.com).
2. Enter the code **IYPGF** and then enter your name.
3. Complete the activity, your answers will be recorded and will be counted as part of your 4<sup>th</sup> nine weeks grade.
