Recognizing the importance of providing our students with life long learning skills, the Riverview School District's vision is to prepare each student for a successful collegiate education and/or employment within the global workforce. We pledge to do this through a commitment to competitive academic programming, personalized attention, and by providing our students with a variety of learning opportunities that assist each of them with discovering their talents and potential. By committing ourselves to this vision, we strive to be one of the most academically competitive school districts in the region.

A non-traditional public school district offering small student to teacher ratios, individualized learning, and a 21st century education through:

- Personal Attention
- Small Class Sizes
- Caring Educators
- A Wide Variety of Award Winning Extracurricular Activities
- Interdisciplinary Learning Opportunities K-12

HEALTH/PHYSICAL

Education

Our goal is to help develop the overall, well rounded child who values health and wellness as vital components of his/her life.

Riverview School District

Situated on the Allegheny River and serving Oakmont and Verona, PA

Health and Physical Education

Riverview School District provides a well-rounded & challenging Health & Physical Education program of the highest quality; empowering students to lead productive, fulfilling lives by maintaining a physically active and healthy lifestyle.

Through the implementation of standards based Health & Physical Education, a highly qualified and dynamic staff promotes optimal growth and development of the physical, nutritional, emotional and social well being of our students. This developmentally balanced Health & Physical Education program will give students the movement skills and knowledge to be active and physically fit to the best of their ability throughout their lifetime.

Physical Education Opportunities.....

Our Phys. Ed. program provides students the chances to choose activities that best suit their interests. From selecting traditional team sports activities to physical fitness training to lifetime sports activities to the dance and music elective, we offer a variety of activities to meet every student's needs and interests.

We strongly believe that the student's body is as vital as their mind in education. Our emphasis is not just on being active but also staying active each day and throughout their lifetimes. Students who are physically fit and active regularly are more receptive learners, have higher self esteem and are more confident in what they do.

A common theme throughout our program is decision making. We feel this skill can be carried with the student out of the gym and into everyday life. How to recognize choices, evaluate them and the potential consequences and selecting the best option is something that can be taken for granted, but it is vital in sports activities and invaluable in life.

We also put considerable effort into assessing the students, and not just on their skill levels. We take into account their effort, attitude, teamwork, knowledge of the game and responsibility. There are numerous opportunities to look at these assets through multiple levels of assessment.
