Press Release:

FOR IMMEDIATE RELEASE

Riverview Students Present at PAECT - "Tech the Halls" Event

On Saturday, December 9th, the Southwest PAECT (PA Association for Educational Communications and Technology) held their first Mini-Keys Event, "Tech the Halls" at Baldwin School District.

Sean Abraham and Ben Johnson represented Riverview, sharing their first PAECT presentation as they demonstrated the tools they use in the classroom and explained the different ways these tools can be used to engage students. The Riverview students discussed Project Based Learning and shared how their class connected globally with students in Spain, Mexico and Argentina. Many teachers from outside districts who were in attendance at the event shared how impressed they were with Riverview students' knowledge, poise, and enthusiasm for learning. Other sessions at the technology event included: A Mission Aboard a Dream Flight Simulator, Coding, Mindfulness in Education, and Robots in the Classroom.

Now that is **SERIOUS SUCCESS!**
