Press Release:

FOR IMMEDIATE RELEASE

Verner Sixth Grade Students Get a Boot Camp Workout!

A visit from the United States Army led to fitness and fun at Verner Elementary School last week! Teacher, Mrs. Spohn, invited a few members of the United States Army to visit and workout with the 6th graders during their Physical Education class. Army representatives led students through a Health and Wellness Army Boot Camp! The sixth graders participated in everything from jumping jacks to a dodgeball tournament. The program was so successful that Army representatives agreed to return in the near future to lead 5th graders through the same workout. Verner staff and students wish to thank the US Army volunteers for their time and mentorship!
