Independent Auditor's Report

Members of the Board
Riverview School District
Oakmont, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Riverview School District, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Riverview School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Report on the Financial Statements (Cont'd)

Auditor's Responsibility (Cont'd)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Riverview School District, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, post-employment benefit information and pension information as shown in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Riverview School District
Management's Discussion and Analysis
June 30, 2018

The discussion and analysis of Riverview School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Government Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements - and Management's Discussion and Analysis - for the State and Local Governments. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

Financial Highlights

Riverview School District, like most of the school districts in Western Pennsylvania, has seen enrollment decline over the last 10 years, dropping from 1,400 students to approximately 959 students. Riverview School District continues to see increases in median household income, as well as increases in property values. The Waterfront establishment continues to offer a short-term solution to the capped taxing capacity, at least into the next couple of years, as it continues to build and sell units. The School District continues to see increases in salaries, as well as PSERS state pension requirements and charter school tuition increases. In addition, special education obligations continue to rise with increases in special education placement costs and transportation needs. Overall, the School District maintains a healthy fund balance and is planning on spending down some of the fund balance to make some needed facility improvements/repairs School District-wide.

Using the Annual Financial Report

The Annual Financial Report consists of a financial section which includes the management's discussion and analysis (this section) and a series of financial statements and notes to those statements. These statements are organized so that the reader can understand Riverview School District as an entire operating entity. The statements provide a detailed look at specific financial activities.

The first two statements are government-wide financial statements - the statement of net position and the statement of activities. These provide both long-term and short-term information about the School District's overall financial status.

**Riverview School District
Management's Discussion and Analysis
June 30, 2018**

Using the Annual Financial Report (Cont'd)

The remaining statements are fund financial statements that focus on individual parts of the School District's operations in more detail than the government-wide statements. These statements will cover governmental, proprietary and fiduciary funds. The financial statements also include notes to explain some of the information in the financial statements and provide more detailed data.

Figure A-1 shows how the required parts of the financial section are arranged and relate to one another:

Figure A-1
Required Components of
Riverview School District's
Financial Report

Figure A-2 summarizes the major features of the School District's financial statements, including the portion of the School District they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Major Features of Riverview School District's
Government-Wide and Fund Financial Statements

	Government-Wide	Fund Statements		
	Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire School District (except fiduciary funds)	The activities of the School District that are not proprietary or fiduciary, such as education, administration and community services	Activities the School District operates similar to private business - food services	Instances in which the School District is the trustee or agent to someone else's resources
Required financial statements	Statement of net position; statement of activities	Balance sheet; statement of revenues, expenditures, and changes in fund balance	Statement of net position; statement of revenues, expenses and changes in net position; statement of cash flows	Statement of fiduciary net position; statement of changes in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term
Type of in-flow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid

Overview of Financial Statements

Government-Wide Statements

The government-wide statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

**Riverview School District
Management's Discussion and Analysis
June 30, 2018**

Overview of Financial Statements (Cont'd)

Government-Wide Statements (Cont'd)

The two government-wide statements report the School District's net position and how they have changed. Net position, the difference between the School District's assets and liabilities, is only one way to measure the School District's financial health or position. Over time, increases or decreases in the School District's net position are an indication of whether its financial health is improving or deteriorating. (Exhibits 1 and 2)

The government-wide financial statements of the School District are divided into two categories:

- **Governmental activities** - All of the School District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- **Business-Type activities** - The School District operates a food service operation and charges fees to staff, students and visitors to help cover the costs of the food service operation.

Fund Financial Statements

The School District's fund financial statements, which begin with Exhibit 3 of the annual financial report, provide detailed information about the most significant funds - not the School District as a whole.

Governmental funds - Most of the School District's activities are reported in governmental funds, which focus on the determination of financial position and changes in financial position. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's operations and the services it provides.

Proprietary funds - These funds are used to account for the School District activities that are similar to business operations in the private sector, determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. The food service fund is the School District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information.

Fiduciary funds - The School District is the trustee, or fiduciary, for some scholarship funds. All of the School District's fiduciary activities are reported in separate statements of fiduciary net position on Exhibit 10. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations.

**Riverview School District
Management's Discussion and Analysis
June 30, 2018**

Financial Analysis of the School District as a Whole

The School District's total net position was a deficit \$(21,265,760) at June 30, 2018 and a deficit \$(20,371,832) at June 30, 2017.

Table A-1
Years Ended June 30, 2018 and 2017

School District Funds

As of June 30, 2018, the School District had a general fund balance of \$4,068,775, which is a decrease of \$95,598 over year-end June 30, 2017. The School District saw a relatively flat increase in revenues. The School District also experienced an increase in personnel costs (salaries and PSERS retirement) as well as capital improvements as the buildings continue to be updated and maintained to ensure a safe environment for the students.

General Fund Budget

Our final audit shows the School District's original and final budget amounts compared with amounts actually paid for each category of the budget. This schedule can be found in the required supplementary information section of the annual audit.

Capital Assets and Debt Administration

Capital Assets

At June 30, 2018, the School District had net capital assets of \$16,370,655 which included land, buildings, construction in progress and furniture and equipment.

Bonds - Series of 2018	7,200,000	-

Economic Factors and Next Year's Budgets and Rates

Salaries, healthcare, and a large increase in PSERS retirement contributions will greatly affect the 2018/2019 budget. Special education and transportation costs also continue to increase. Instability with state funding commitments, as well as an increase in median household income within the communities (Verona and Oakmont), will move the School District into relying more on local funding. The School District will continue to review any opportunities that can provide savings and/or cost reduction into the future in an effort to keep property tax increases away or very small. The Board of School Directors passed a resolution to not increase property taxes beyond the state index of 2.4% if needed for the 2018/2019 school year.

Reconciliation of the Governmental Funds
Statement of Revenues, Expenditures and Changes
in Fund Balances to the Statement of Activities
Year Ended June 30, 2018**

Exhibit 6

Total Net Change in Fund Balances - Governmental Funds \$ 6,558,029

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeds depreciation in the period.

Depreciation Expense	\$ (700,810)	
Capital Outlays	<u>907,158</u>	206,348

Because some property taxes will not be collected for several months after the School District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Unearned tax revenues increased by this amount this year. 50,699

Repayment of bond, note and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 915,334

Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balances. In the government-wide financial statements, however, issuing debt increases long-term liabilities in the statement of net position and does not affect the statement of activities. The proceeds were: (7,200,000)

In the statement of activities, certain operating expenses - compensated absences (sick pay and vacations), special termination benefits (early retirement), and other post-employment benefits (OPEB) - are measured by the amounts earned during the year. In governmental funds, however, expenditures for the items are measured by the amount of financial resources used (essentially, the amounts actually paid).

Compensated Absences	(8,878)	
Termination Payments	4,433	
Other Post-Employment Benefits	<u>(81,124)</u>	(85,569)

**Riverview School District
 Reconciliation of the Governmental Funds
 Statement of Revenues, Expenditures and Changes
 in Fund Balances to the Statement of Activities
 Year Ended June 30, 2018**

Exhibit 6

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

Net Change in Accrued Interest on the Bonds	\$ (103,490)
---	--------------

Bond discount is reported in the statement of revenues and expenditures in governmental funds as expenditures but are capitalized and amortized over the life of the bonds in the statement of activities.

Bond Discount	\$ 69,403	
Amortization of Discount and Deferred Loss on Refunding	<u>(54,635)</u>	14,768

Governmental funds report School District pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned is reported as pension expense.

School District Pension Contributions to PSERS	2,970,937	
Cost of Benefits Earned	<u>(4,233,005)</u>	<u>(1,262,068)</u>

Riverview School District
Notes to Financial Statements
June 30, 2018

Note 1 - Summary of Significant Accounting Policies

Riverview School District, located in Allegheny County, Pennsylvania, provides public education, kindergarten through twelfth grade, to the residents of the Boroughs of Oakmont and Verona. The School District operates under a nine-person elected Board of Directors.

A. Basic Financial Statements - Government-Wide Statements

The School District's basic financial statements include both government-wide (reporting the School District as a whole) and fund financial statements (reporting the School District's major funds). The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of Riverview School District. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. In the government-wide statement of net position, governmental activities are represented on a consolidated basis by column.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payment-in-lieu of taxes and other charges between various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

B. Basic Financial Statements - Fund Financial Statements

Fund financial statements of the School District are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues and expenditures. Funds are organized into three categories: governmental; proprietary, and fiduciary.

The emphasis in fund financial statements is on the major funds in the governmental category. Nonmajor funds are summarized in a single column. The nonmajor funds are combined in a column in the fund financial statements.

Riverview School District
Notes to Financial Statements
June 30, 2018

Note 1 - Summary of Significant Accounting Policies (Cont'd)

B. Basic Financial Statements - Fund Financial Statements (Cont'd)

1. Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and change in financial position (sources, uses, and balances of financial resources) rather than upon net income. The School District reports the following major governmental funds and fund types:

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *capital projects fund* accounts for financial resources to be used for the acquisition of construction of major capital facilities or equipment (other than those financed by proprietary funds).

The activities reported in these funds are reported as governmental activities in the government-wide financial statements.

2. Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The School District reports the following proprietary fund type:

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity is financed with debt that is solely secured by a pledge of the net revenues. The activities reported in these funds are reported as business-type activities in the government-wide financial statements. The *food service fund* accounts for the revenues, food purchases and other costs and expenses for providing meals to students and/or faculty during the school year.

3. Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and are therefore not available to support School District programs. The reporting focus is on net position and changes in net position. The School District's fiduciary funds are presented in the fiduciary fund financial statements by type (pension, private purpose, or agency). The School District reports the following fiduciary fund types:

Riverview School District
Notes to Financial Statements
June 30, 2018

Note 1 - Summary of Significant Accounting Policies (Cont'd)

B. Basic Financial Statements - Fund Financial Statements (Cont'd)

3. Fiduciary Funds (Cont'd)

The *private purpose trust fund* is used to account for resources of monies contributed to the School District for scholarships.

The *agency fund* represents the School District's student activity funds. These funds account for student activities in the high school.

Fiduciary funds are not incorporated into the government-wide financial statements.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e. the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, net of any uncollectible amounts, are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or

Riverview School District
Notes to Financial Statements

Note 1 - Summary of Significant Accounting Policies (Cont'd)

C. Measurement Focus and Basis of Accounting (Cont'd)

soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Property taxes levied but collected beyond 60 days after year end are recorded as unearned revenue to be recognized as revenue when the taxes are collected. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental revenues, investment income, rent and certain miscellaneous revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. In applying the susceptible to accrual concept to intergovernmental revenues (state and federal sources), the legal and contractual requirements of the individual programs are used as guidance. There are however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the School District; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure. All other revenue items are considered to be measurable and available only when cash is received by the government.

D. Joint Ventures

The School District is one of nine member school districts of the Forbes Road Career & Technology Center (FRCTC). FRCTC provides vocational and technical education to participating students of the member districts. FRCTC is controlled and governed by the Joint Board, which is composed of all the school board members of all the member districts. Direct oversight of FRCTC's operations is the responsibility of the Joint Committee, which consists of one representative from each participating school district. No member of the Jointure exercises specific control over the fiscal policies or operations of FRCTC. The School District's share of annual operating and capital costs for FRCTC fluctuates, based on the percentage of enrollment of each member district in the school. The School District's financial obligation to FRCTC for the year ended June 30, 2018 was \$196,431 which has been reported in the School District's general fund. The School District has no equity interest in FRCTC as of June 30, 2018. Complete financial statements for FRCTC can be obtained from the administrative offices at 607 Beatty Road; Monroeville, PA 15146.

The School District is also one of eight member school districts of the Eastern Area Special Schools (Eastern). Eastern provides education to participating students of the member districts. Eastern is controlled and governed by the Joint Board, which is composed of all the school board members of all of the member districts. Direct oversight of Eastern's operations is the responsibility of the Joint Committee, which consists of one representative from each participating school district. No member of the Jointure exercises specific control over the fiscal policies or operations of Eastern. The School District's share of annual operating costs for Eastern fluctuates, based on the market value of each member district. The School District's financial obligation to Eastern for the year ended June 30, 2018 was \$4,126 which has been reported in the School District's general fund. The School District has no equity interest in Eastern as of June 30, 2018. Complete

Note 1 - Summary of Significant Accounting Policies (Cont'd)

D. Joint Ventures (Cont'd)

financial statements for Eastern can be obtained from the administrative offices, 550 Aura Drive, Monroeville, PA 15146.

E. Cash and Cash Equivalents

The School District's policy is to maintain cash balances in interest-bearing accounts such as money market or flex funds. The market values of the funds approximate cost. For purposes of the statement of cash flows, the proprietary fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

F. Investments

Investments are stated at fair value except that treasury and agency obligations that have a remaining maturity at the time of purchase of one year or less are shown at amortized cost. Fair value is based on quoted market prices. Funds are invested pursuant to the Public School Code of 1949 and investment policy guidelines established by the School District and approved by the Members of the Board. The School Code states that authorized types of investments shall be: United States Treasury Bills; short-term obligations of the United States Government or its agencies or instrumentalities; deposits in savings accounts, time deposits or share accounts of institutions insured by the FDIC; obligations of the United States or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America and the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

G. Budgets

The School Board approves, prior to the beginning of each year, an annual budget on the modified accrual basis of accounting for the general fund. This is the only fund for which a budget is required and for which taxes may be levied. The general fund is the only fund that has an annual budget that has been legally adopted by the School Board. The Public School Code allows the School Board to authorize budget transfer amendments during the year, but only during the last nine months of the fiscal year. There were no supplemental budgetary appropriations made during the year ended June 30, 2018.

The final budget data reflected in the financial statements includes the effect of approved budget transfers and, for comparative purposes, the actual amounts have also been presented. The School District expenditures may not legally exceed the revised budget amounts by function and object. Function is defined as a program area such as instructional services and object is defined as the nature of the expenditure, such as salaries or supplies. Amendments require Board approval.

Riverview School District
Notes to Financial Statements
June 30, 2018

Note 1 - Summary of Significant Accounting Policies (Cont'd)

H. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

I. Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used.

Inventories in governmental funds are stated at cost by the first-in, first-out method. The inventories in the general fund are equally offset by a fund balance reserve which indicates they do not constitute "available spendable resources" even though they are a component of net current assets. There was no material inventory balance as of June 30, 2018.

The inventory of the food service fund consists of food supplies and government donated commodities which were valued at estimated fair market value, and purchased commodities and supplies, both valued at cost using the first-in, first-out (FIFO) method. Any unused commodities donated by the federal government at June 30, 2018 are reported as unearned revenue.

J. Prepaid Items

In both the government-wide and fund financial statements, prepaid expenses are recorded as assets in the specific governmental fund in which future benefits will be derived.

K. Capital Assets

Capital assets, which include property, plant, equipment and land improvements are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial, individual cost of more than \$1,500 and an estimated useful life in excess of one year. In addition, capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

**Riverview School District
Notes to Financial Statements
June 30, 2018**

Note 1 - Summary of Significant Accounting Policies (Cont'd)

K. Capital Assets (Cont'd)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

All reported capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	50
Building Improvements	20-50
Land Improvements	20
Furniture	20
Vehicles	8
Equipment	5-15
Computers	5

Proprietary fund equipment purchases are capitalized in the proprietary fund at cost and depreciated on a straight-line basis over 12 years.

L. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discount are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discount during the current period. The face amount of debt issued is reported as other financing sources while discount on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

M. Compensated Absences

The School District's policies regarding compensated absences vary by contract. Act 93 administrative employees only may accumulate sick days which they are paid for upon retirement.

The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred.

Riverview School District
Notes to Financial Statements
June 30, 2018

Note 1 - Summary of Significant Accounting Policies (Cont'd)

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The School District has two items that qualify for reporting in this category. One is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other in the government-wide statement of net position is related to the participation in the cost sharing defined benefit pension plan.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. The School District has one item reported in the government-wide statement of net position relating to the cost sharing defined benefit pension plan. The School District has only one type of item, which arises only under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available.

O. Defining Operating Revenues and Expenses

The School District's proprietary funds distinguish between operating and nonoperating revenues and expenses. Operating revenues and expenses of the School District's food service fund consist of charges for meals and the costs of providing those services, including depreciation and excluding interest cost. All other revenues and expenses are reported as nonoperating.

P. Use of Restricted Resources

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the School District's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the School District's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications-committed and then assigned fund balances before using unassigned fund balances.

Riverview School District
Notes to Financial Statements
June 30, 2018

Note 1 - Summary of Significant Accounting Policies (Cont'd)

Q. Interfund Activity

Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related costs as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

R. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position - consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) law through constitutional provisions or enabling legislation.

Unrestricted net position - all other net position that does not meet the definition of "restricted" or "net investment in capital assets".

Fund Statements - Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, fund balance reporting and governmental fund type definitions, the School District classifies governmental fund balances as follows:

Nonspendable - amounts that cannot be spent because they are either (1) not in a spendable form or (2) legally or contractually required to remain intact.

Restricted - the part of fund balance that is restricted to be spent for a specific purpose. The constraints on these amounts must be externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or by enabling legislation. Enabling legislation authorizes the government to assess, levy, change or mandate payments and includes a legally enforceable requirement on the use of these funds.

Riverview School District
Notes to Financial Statements
June 30, 2018

Note 1 - Summary of Significant Accounting Policies (Cont'd)

R. Equity Classifications (Cont'd)

Fund Statements - Fund Balance (Cont'd)

Committed - the portion of fund balance that can only be used for specific purposes as a result of formal action by the School District's highest level of authority, school board. Once the item is committed, it cannot be used for any other purpose unless changed by the same procedures used to initially constrain the money, which is the passage of a motion.

Assigned - reflects the School District's intent to use the money for a specific purpose but is not considered restricted or committed. Fund balance may be assigned by the superintendent or director of finance and operations.

Unassigned - represents the part of spendable fund balance that has not been categorized as restricted, committed or assigned. The general fund is the only fund permitted to have a positive unassigned fund balance.

The purposes of the fund balance classification as of June 30, 2018, are as follows:

1. The nonspendable fund balance in the general fund of \$199,054 is for prepaid items.
2. The restricted funds in the capital projects fund of \$6,665,864 are for the School District-wide improvement project.
3. The committed fund balance in the capital projects fund of \$509,844 is for future capital projects and improvements.
4. The committed fund balance in the general fund of \$1,700,000 is for capital projects, capital improvements and retirement contributions.
5. The assigned fund balance in the general fund of \$489,283 is for future capital improvements and any unanticipated expenditures.

Note 2 - Deposits and Investments

The deposit and investment policy of the School District adheres to state statutes and prudent business practice. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the School District.

**Riverview School District
Notes to Financial Statements
June 30, 2018**

Note 2 - Deposits and Investments (Cont'd)

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in an event of a bank failure, the government's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. Deposits in excess of amounts covered by the Federal Deposit Insurance Corporation are collateralized in accordance with Act 72 of 1971 of the Pennsylvania State Legislature which requires the institution to pool collateral for all governments and have the collateral held by an approved custodian in the institution's name. As of June 30, 2018, \$1,874,485 of the School District's bank balance of \$4,349,485 was exposed to custodial credit risk as follows:

Uninsured and Collateral Held by Pledging Bank's Agent not in the School District's Name	<u>\$1,874,485</u>
---	--------------------

As of June 30, 2018, the School District had the following investments:

Investments	Fair Value
PLGIT	<u>\$8,679,727</u>

Interest Rate Risk - The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risks - The Pennsylvania Public School Code authorizes the types of investments allowed. These are described in Note 1F. The School District has no investment policy that would further limit its investment choices. The School District's investments in Pennsylvania Local Government Investment Trust were rated AAAM by Standard & Poor's.

Concentration of Credit Risk - The School District places no limit on the amount it may invest in any one issue.

Investments

The Pennsylvania Local Government Investment Trust (PLGIT) was established as a common law trust, organized under laws of the Commonwealth of Pennsylvania. Shares of the fund are offered to certain Pennsylvania school districts, intermediate units, area vocational-technical schools and municipalities. The purpose of the fund is to enable such governmental units to pool their available funds for investments authorized by Section 440.1 of the Pennsylvania Public School Code of 1949, as amended.

PLGIT is governed by an elected board of trustees who are responsible for the overall management of the fund. The trustees are elected from the several classes of local governments participating in the fund. The fund is audited annually by independent auditors. The fund is a local government investment pool and is exempt from

**Riverview School District
Notes to Financial Statements
June 30, 2018**

Note 2 - Deposits and Investments (Cont'd)

Investments (Cont'd)

the requirements of SEC's Rule 2(a)7 of the Investment Company Act of 1940. The fund measures for financial reporting purposes its assets at amortized cost and maintains a stable net asset value of \$1 per share. Accordingly, the fair value of the position in PLGIT is the same as the value of PLGIT shares. There are no limitations or restrictions on withdrawals.

Note 3 - Real Estate Taxes

The municipal tax collectors bill and collect real estate taxes on behalf of the School District based upon assessed values provided by the County. The School District's tax rate for all purposes in 2017/2018 was 23.007 mills (\$23.01 per \$1,000 assessed valuation). The tax calendar for real estate taxes levied for 2017/2018 is as follows:

Tax Levy Date	July 1, 2017
2% Discount Period	Through August 31, 2017
Face Payment Period	September 1 - October 31, 2017
10% Penalty Period	November 1 Until Liened
Lien Filing Date	July 1, 2018

The amounts shown as delinquent real estate taxes receivable have not been recorded as revenue on the fund statements. These taxes are, however, recorded as unearned revenue on the balance sheet until they are received. The amounts reported for this receivable are reported on the balance sheet in the amount of \$1,657,624 net of estimated uncollectible amounts, along with other taxes receivable of \$405,952.

Note 4 - Due from Other Governments

Amounts due from other governments represent receivables for revenues earned by the School District. At June 30, 2018, the following amounts are due from other governmental units:

	Governmental Funds	Enterprise Fund	Totals
Federal (through the state)	\$151,197	\$27,690	\$178,887
State	<u>665,517</u>	<u>1,907</u>	<u>667,424</u>
	<u>\$816,714</u>	<u>\$29,597</u>	<u>\$846,311</u>

**Riverview School District
Notes to Financial Statements
June 30, 2018**

Note 5 - Capital Assets (Cont'd)

Depreciation expense was charged to functions/programs as follows:

Governmental Activities	
Instruction	\$471,618
Instructional Student Support	107,777
Administration and Financial	
Support Services	27,360
Operation and Maintenance of Plant Services	31,820
Student Activities	<u>62,235</u>
 Total Depreciation Expense	 <u>\$700,810</u>
 Business-Type Activities	
Food Service	<u>\$ 8,429</u>

Note 6 - Interfund Balances

Interfund balances at June 30, 2018 were:

Fund	Interfund Receivable	Interfund Payable
General Fund	\$1,227	\$ -
Proprietary Fund		
Food Service Fund	<u> -</u>	<u>1,227</u>
	<u>\$1,227</u>	<u>\$1,227</u>

Balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All the balances above are expected to be collected in the subsequent year.

Note 7 - Interfund Transfers

For the year ended June 30, 2018, interfund transfers consisted of \$4,449 from the general fund to the activities fund to support the musical and the yearbook, \$60,000 from the general fund to the food service fund to support operations and \$874,662 from the general fund to the capital projects fund to support capital improvements.

Riverview School District
Notes to Financial Statements
June 30, 2018

Note 8 - Long-Term Debt

Long-term liability activity for the year ended June 30, 2018, was as follows:

Note 8 - Long-Term Debt (Cont'd)

The debt service source for the above debt is the general fund.

The annual requirements of School District funds to amortize all debt outstanding as of June 30, 2018, are as follows:

Year Ended June 30,	General Obligation Bonds		General Obligation Note		Totals
	Principal	Interest	Principal	Interest	
2019	\$ 865,000	\$ 470,950	\$20,333	\$ -	\$ 1,356,283
2020	890,000	520,673	20,332	-	1,431,005
2021	910,000	502,568	-	-	1,412,568
2022	925,000	484,113	-	-	1,409,113
2023	940,000	465,336	-	-	1,405,336
2024-2028	4,810,000	2,006,528	-	-	6,816,528
2029-2033	4,650,000	1,326,999	-	-	5,976,999
2034-2038	<u>5,240,000</u>	<u>548,057</u>	<u>-</u>	<u>-</u>	<u>5,788,057</u>
	<u>\$19,230,000</u>	<u>\$6,325,224</u>	<u>\$40,665</u>	<u>\$ -</u>	<u>\$25,595,889</u>

As part of the School District's food service management company contract renewal, the vendor purchased equipment on the School District's behalf. The purchase of the equipment constituted an agreement to repay the cost of the equipment over the anticipated life of the contract, in which the School District estimates at five years. The cost of the equipment purchased and the amount of the note was \$101,667, with the first of 60 payments of \$1,694 due July 2015. The note bears no interest.

Note 9 - Termination Payments

The early retirement incentive program is offered to Act 93 administrators on an individual basis at the Board of Education's discretion. Scheduled payments to retired administrators in excess of one year are accrued at a discount rate of 3.0%. The discounted present value of Act 93 early retirement incentive payments was \$12,899 at June 30, 2018.

In the statement of activities, termination benefits are measured by the amounts earned during the year. In governmental funds, expenditures for this item are measured by the amount of financial resources used.

A. Summary of Significant Accounting Policies

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

B. General Information about the Pension Plan

1. Plan Description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

2. Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Notes to Financial Statements
June 30, 2018

Note 10 - Public School Employees' Retirement System (PSERS) (Cont'd)

B. General Information about the Pension Plan (Cont'd)

2. Benefits Provided (Cont'd)

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

3. Contributions

Member Contributions

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Notes to Financial Statements
June 30, 2018**

Note 10 - Public School Employees' Retirement System (PSERS) (Cont'd)

B. General Information about the Pension Plan (Cont'd)

3. Contributions (Cont'd)

Employer Contributions

The School District's contractually required contribution rate for fiscal year ended June 30, 2018 was 31.74% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School District were \$2,970,937 for the year ended June 30, 2018.

C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the School District reported a liability of \$35,757,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2016 to June 30, 2017. The School District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2018, the School District's proportion was 0.0724%, which was an increase of 0.0045% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2018, the School District recognized pension expense of \$4,233,005. At June 30, 2018, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 373,000	\$216,000
Net difference between projected and actual investment earnings	829,000	-
Changes in assumptions	971,000	-
Changes in proportions	2,185,000	119,000
Difference between employer contributions and proportionate share of total contributions	19,405	-
Contributions subsequent to the measurement date	<u>2,970,937</u>	<u>-</u>
	<u>\$7,348,342</u>	<u>\$335,000</u>

**Riverview School District
Notes to Financial Statements
June 30, 2018**

Note 10 - Public School Employees' Retirement System (PSERS) (Cont'd)

C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)

\$2,970,937 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2019	\$1,008,199
2020	1,614,868
2021	1,133,901
2022	<u>285,437</u>
	<u>\$4,042,405</u>

1. Actuarial Assumptions

The total pension liability as of June 30, 2017 was determined by rolling forward the System's total pension liability at June 30, 2016 to June 30, 2017 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 7.25%, includes inflation at 2.75%.
- Salary growth - Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status of the benefits provided through the pension.

**Riverview School District
Notes to Financial Statements
June 30, 2018**

Note 10 - Public School Employees' Retirement System (PSERS) (Cont'd)

C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)

1. Actuarial Assumptions (Cont'd)

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global public equity	20.0%	5.1%
Fixed income	36.0%	2.6%
Commodities	8.0%	3.0%
Absolute return	10.0%	3.4%
Risk parity	10.0%	3.8%
Infrastructure/MLPs	8.0%	4.8%
Real estate	10.0%	3.6%
Alternate investments	15.0%	6.2%
Cash	3.0%	0.6%
Financing (LIBOR)	<u>(20.0)%</u>	1.1%
	<u>100%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2017.

2. Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

3. Sensitivity of School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

June 30, 2018**

Note 10 - Public School Employees' Retirement System (PSERS) (Cont'd)

C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)

3. Sensitivity of School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate (Cont'd)

	(In thousands)		
	1.00% Decrease	Current Discount Rate	1.00% Increase
	6.25%	7.25%	8.25%
School District's proportionate share of the net pension liability	\$44,014	\$35,757	\$28,786

4. Pension Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.pa.gov.

Note 11 - Post-Employment Healthcare Plan

A. Plan Description

Riverview School District administers a single-employer defined benefit healthcare plan ("the Supplemental Health Plan"). The plan provides medical, and in some cases dental and vision, for three groups of employees: teachers; administrators; and the superintendent. The benefits provided are for the eligible retirees and their spouses through the School District group health insurance plan which covers both active and retired members. Benefit provisions are mostly established through negotiations between the School District and union or group representing the employees. The plan does not issue a publicly available financial report.

The eligibility and the benefits for each group is as follows:

1) Teachers

Eligibility - Employee may retire after age 51 with at least 25 years of service with Riverview School District (including prior experience at both Verona and Oakmont School Districts) and at least 30 years of service in PSERS. Those employees receiving permanent disability retirement benefits are not eligible.

Persons Covered - Employee and Spouse

**Riverview School District
Notes to Financial Statements
June 30, 2018**

Note 11 - Post-Employment Healthcare Plan (Cont'd)

A. Plan Description (Cont'd)

1) Teachers (Cont'd)

Benefits Provided - The School District will provide up to \$5,000 per year for 8 years, or \$4,000 for 10 years to purchase health, dental, vision and life insurance for the retired employee and their spouse offered through the School District's health care or life insurance programs for active employees. In the event that the retired employee dies within the 8 or 10-year period, then all future benefits will cease and the School District will have no future obligation.

Opt Out - If the retired employee elects to forgo the above health care benefits, the employee will be paid the sum of \$1,600 annually for 10 years.

At July 1, 2016, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	14
Active employees	<u>101</u>
	<u>115</u>

2) Act 93 Administrators/Non-Act 93 Administrators

The School Board negotiates, on an individual basis, retirement incentives, if any, with members of the administrative group.

3) Superintendent

Eligibility - Upon retirement, with at least 8 years of service with the School District.

Persons Covered - Employee and Spouse

Benefits Provided - The School District will provide no less than \$8,000 annually into a premium-only FSA to help defray the cost of continuation on the School District's healthcare plan until the Superintendent becomes eligible for Medicare.

B. Total OPEB Liability

The School District's total OPEB liability of \$2,878,027 was measured as of July 1, 2016 and was determined by an actuarial valuation as of that date.

**Riverview School District
Notes to Financial Statements
June 30, 2018**

Note 11 - Post-Employment Healthcare Plan (Cont'd)

C. Actuarial Methods and Assumptions

The total OPEB liability in the July 1, 2016 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.75%
Discount Rate	3.00%
Healthcare Cost Trend Rates	5.00% per year

The discount rate was based on the Bond Buyers 20-Bond Index.

Mortality rates were based on the RP-2000 Combined Mortality Table.

The actuarial assumptions used in the July 1, 2016 valuation were selected using input from the School District based upon actual experience.

D. Change in the Total OPEB Liability

	Total OPEB Liability
Balance at June 30, 2017	\$2,796,903
Changes for the Year:	
Service Cost	126,685
Interest	85,752
Benefit Payments	<u>(131,313)</u>
Net Changes	<u>81,124</u>
Balance at June 30, 2018	<u>\$2,878,027</u>

E. Sensitivity of the Total Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the School District, as well as what the School District's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.00%) or 1-percentage point higher (4.00%) than the current discount rate:

**Riverview School District
Notes to Financial Statements
June 30, 2018**

Note 11 - Post-Employment Healthcare Plan (Cont'd)

E. Sensitivity of the Total Liability to Changes in the Discount Rate (Cont'd)

	1.00% Decrease	Discount Rate 3.00%	1.00% Increase
	2.00%		4.00%
Total OPEB Liability	\$3,165,830	\$2,878,027	\$2,619,005

F. Sensitivity of the Total Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the School District, as well as what the School District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage point lower (4.00% per year) or a 1-percentage point higher (6.00% per year) than the current healthcare cost trend rates:

	1.00% Decrease (4.00% per Year)	Healthcare Cost Trend Rate (5.00% per Year)	1.00% Increase (6.00% per Year)
Total OPEB Liability	\$2,676,565	\$2,878,027	\$3,108,269

G. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, the School District recognized OPEB expense of \$81,124. At June 30, 2018, the School District did not report any deferred outflows and deferred inflows of resources related to OPEB.

Note 12 - Risk Management

The School District is one of forty-six members of the Allegheny County Schools Health Insurance Consortium (Consortium) which purchases health benefits on behalf of participating public school districts. The School District is billed monthly based on employee count and coverage information at rates established by the Consortium at the beginning of each fiscal year. As the Consortium is self-insured, rates are established with the objective of satisfying estimated claims and other costs, as well as maintaining working capital requirements. Contributions to the Consortium totaled \$2,370,361 and \$2,304,171 for the years ended June 30, 2018 and 2017, respectively.

Participating school districts are permitted to withdraw from the Consortium under terms specified in the agreement. Withdrawing participants are entitled to or responsible for a proportionate share of the Consortium net position or deficiency in net position, respectively, as determined on the fiscal year-end date after withdrawal. As of June 30, 2018, the net position of the Consortium was \$64,048,819 of which \$613,641 is attributable to the School District.

Riverview School District
Notes to Financial Statements
June 30, 2018

Note 12 - Risk Management (Cont'd)

The School District participates in an insurance program offered by a commercial insurance company. It purchases commercial insurance policies for risks of losses for casualty, workmen's compensation and liability claims.

The School District is exposed to various risks of loss related to tort; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. These risks are covered by commercial insurance purchased from independent third parties.

Settled claims for these risks have not exceeded commercial insurance coverage for the past three years.

Note 13 - On-Behalf Payments

The amounts recognized for revenues and expenditures for on-behalf payments relating to fringe benefits for the year ended June 30, 2018, was \$1,864,317.

This includes \$1,517,907 recognized for revenues and expenditures relating to pension contributions for its employees that the Commonwealth of Pennsylvania paid to the Public School Employees' Retirement System (PSERS) for pension and \$346,410 to the federal government for social security and Medicare taxes for the year ended June 30, 2018. The School District pays these on-behalf payments directly to PSERS and the government and is reimbursed by the Commonwealth for their appropriate share.

Note 14 - Operating Leases

The School District leases seven copier machines under operating leases. For the year ended June 30, 2018, total lease payments made under these operating leases were \$18,696. Future minimum payments on the lease are as follows:

Year Ended June 30,	Amount
2019	<u>\$18,696</u>

Note 15 - Construction Commitment

As of June 30, 2018, the School District had construction commitments of approximately \$695,000 for capital improvements. It is anticipated these projects will be completed in the 2018/2019 school year.

Note to the Required Supplementary Information
Budget Comparison
June 30, 2018

Note 1 - Budgetary Information

Budgets are adopted on a basis consistent with U. S. generally accepted accounting principles. Annual appropriated budgets are adopted for the general fund. All annual appropriations lapse at year-end.

All budget amounts presented in the accompanying required supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions to the annual budget during the year).
