He mentioned that the coaches are following the strict protocols set forth on the sports and resocialization plan.

Dr. English explained to the Board that the FID application had been accepted by PDE. This three-year acceptance permits the district the use of five flexible instructional days. Under this approval, snow days and emergency days will be completed virtually through at-home learning.

Mr. Rizzo provided the board with a brief update from the technology department. Mr. Rizzo mentioned that devices are in the hands of all students and families that need them. There are times when the Microsoft servers have been slow, but they have improved. There are times when technology has had glitches, but they seem to be improving. Mr. Rizzo discussed having the Seesaw application up and running for all teachers K-6, as well as the Insync site for teachers in math. He discussed on Friday, September 18, the Clever application will be up and running and delivered to each student for easy access to applications.

Additionally, Dr. English shared information regarding the importance of the Riverview Educational Foundation. Since 2017, the REF has funded approximately \$115,000 in projects. Dr. English mentioned that the Ampco-Pittsburgh Charitable Foundation has sent a donation to the REF in the amount of \$5,000 to be used for the students of Riverview School District for Pandemic Relief, and is being designated to Mr. Rizzo to assist the District IT needs related to the pandemic. We would like to thank the REF and Ampco-Pittsburgh Charitable Foundation for their generous support.

Lastly, Dr. English mentioned that Riverview has joined the PA Association of Rural and Small Schools. This allows us to have a voice in Harrisburg and partner with small schools throughout the Commonwealth, along with providing legislative updates, job posting capabilities, staff development opportunities, and school board retreats to name a few. He then turned the meeting over to Ms. Good for VEBH Introduction.
